### THE GAME OF SHUFFLEBOARD

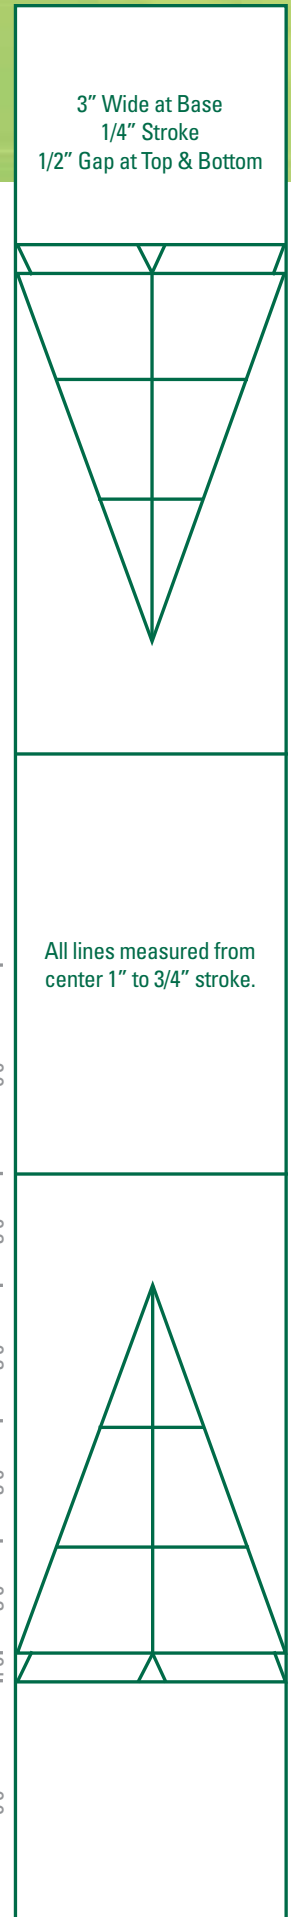

About the year 1913, a small group of winter tourists in Daytona Beach, Florida conceived the idea of building courts on land; until that time, shuffleboard was exclusively a shipboard game. Those early courts were successful, but the growth of shuffleboard was rather slow, until the end of the 1930s.

After World War II, many improvements in layout, rules and regulations began to take place. Shuffleboard clubs were being formed and with the formation of recreation departments, there was improved funding to build new and better courts.

The Nidy Company of Central Florida built many of the early new courts. The late Charles Wilbur Nidy was the original owner of the company and was known for the quality of his concrete work. He began building courts in 1924 and retired in 1958. The company was then operated by his son and now his grandson.

At this writing, the company has built thousands of courts all over the state of Florida, in addition to having built municipal and private court facilities in 14 other states.

Shuffleboard has definitely become one of the most popular sports in America today. We have heard more laughter and seen more happiness around shuffleboard clubs than any other sports facility. The sport is inexpensive to play and shuffleboard courts properly constructed are easily maintained at a very low cost.

## POLY INDOOR/OUTDOOR SHUFFLEBOARD COURT

The Poly Court is 5/8" thick and weighs 248 lbs. The material itself is practically indestructible. It will not oxidize in sea or marine air. It is corrosion-free. The composition insures that it will effectively resist the sun's ultra-violet radiation. From a Shuffler's standpoint, the court plays great and there is no waxing or dressing of the court.

### NOTICE

1. Assemble in 60 minutes.
2. Install over asphalt, cement, wood, or carpets.
3. No messy waxes, beads or dressings needed.
4. Play immediately after a rain.
5. All lines and numbers are pre-painted... court is ready to play!

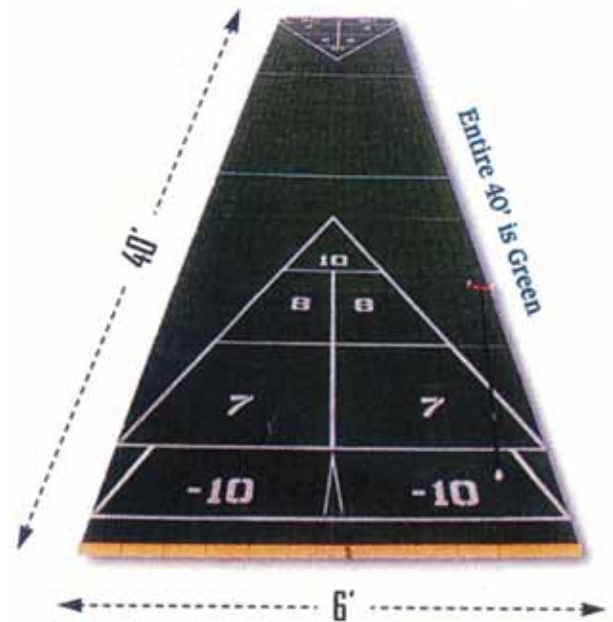

### Have Fun at... Work, Home, Club

Any location inside or outside with a level area can now have tournament shuffleboard courts. Your home, workplace, social club, cottage and church, to mention a few!

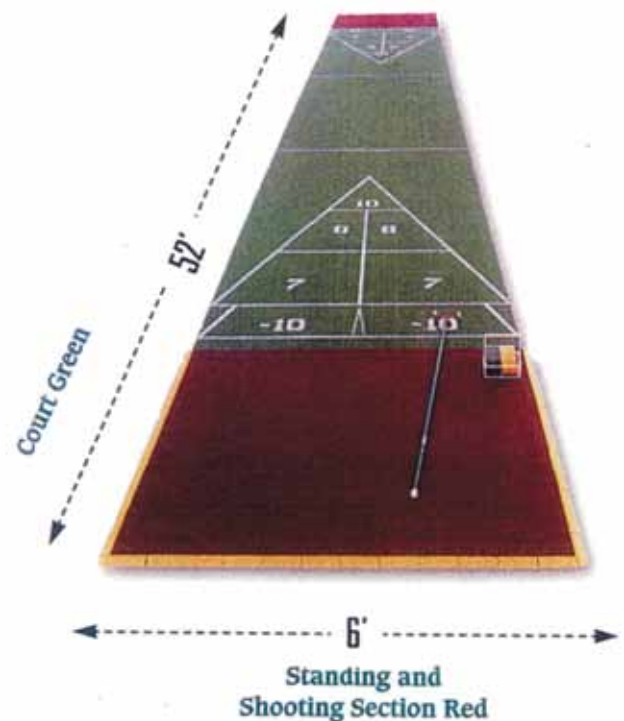

4 Boxes Packed For Shipping Via UPS 248 lbs.
